Tomorrow's People is a national employment charity with a long track-record of success in helping people out of unemployment and into jobs. Tomorrow's People was founded in 1984 and in that time has helped over 400,000 long-term unemployed people on their journey back to work.

Tomorrow's People offers training and advice, confidence building, job search support, CV writing, and interview skills. Most importantly, once someone gets a job, we stick with them and their employer to make sure that job success is permanent.

“When I first came to Tomorrow's People I had no idea what to do with my life, but they helped me to recognise and develop the skills and abilities I already had. It's a dream come true and they have helped me turn my life around.”
